OXC-200

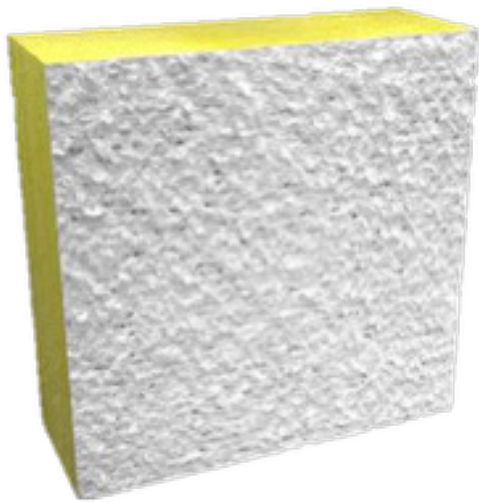

ACOUSTICAL CEILING TILES

Our acoustical ceiling tile products are designed to acoustically treat interior ceiling spaces. The OXC-200 Series Ceiling Tiles by Oeler Industries Inc. offer both excellent acoustics with customized options to enhance visual aesthetics.

OXC-200 Ceiling tiles are offered as both a sound absorbing as well as combination sound absorbing / sound blocking tile.

OXC-200 Ceiling Tiles have a nubby cloth facing attached to a 1" or 2" thick rigid fiberglass board and have excellent sound absorption (NRC) ratings.

OXC-200B Ceiling Tiles take the standard OXC-200 tile and add a 1# per square foot foil backed vinyl noise to the backside of the tile for high sound absorption (NRC) and high sound blocking (STC) requirements.

SPEC DATA SHEET # OXC-200

4700 Clairton Blvd., Pittsburgh, PA 15236

Tel: (412) 884-3000 • Fax: (412) 884-3300
