

Spec Data Sheet OX-101

- ◆ **High-quality, economical, multi-purpose panels**
- ◆ **Excellent acoustical performance**
- ◆ **Class A fire rated**
- ◆ **Standard, designer or custom finishes**

Oeler Acoustical Wall Panels by Oeler Industries Incorporated are the solution for areas that require noise reduction and are available in a variety of models for various applications. The O-X200 Wall Panel is manufactured to the highest standards and is specifically designed as a standard absorber panel that offers an economical way to resolve reverberant noise problems. Application for the O-X200 panels includes schools, universities, offices, airports, churches, restaurants and any area where excess reverberation is a problem.

The O-X200 Standard Wall Panel provides the ultimate in performance with excellent NRC ratings. Available in four standard thicknesses: 1/2", 1", 1 1/2" and 2" with custom thickness available. O-X200 Panels are constructed with a 6-7# PCF rigid fiberglass absorber core. The edges are chemically hardened and are available in 4 edge profiles. O-X200 panels are available in standard or custom-sizes (up to a maximum of 5' X 10') with custom, designer or C.O.M fabric available.

Installation of the O-X200 panels is simplistic using mechanical clips, adhesive or hook & loop. Consult with factory on the best-suited mounting for your specific application.
